Introductions to the local insolvency laws of 14 Central and Eastern Europe countries

The first contact with foreign insolvency laws is in most cases as unpleasant as sudden. And even if local bankruptcy counsel has been retained, many questions remain unanswered and it is frequently difficult to put the information coming from the foreign insolvency lawyer in proper perspective.

This compilation, which has been prepared by lawyers practicing in the area of insolvency law at offices in the countries covered by this book, is an attempt to bridge this information gap. It is intended to serve as a quick reference tool for business managers, in-house counsel, lawyers in general practice and other professionals who need to familiarize themselves quickly with some of the most practice-relevant features of the insolvency laws of one or more of the following countries: Albania, Austria, Bosnia/Herzegovina, Bulgaria, Croatia, the Czech Republic, Hungary, Kosovo, Poland, Romania, Serbia, Slovakia, Slovenia and Ukraine.
